

# SEGADORA ATADORA MC CORMICK

**RECORDADO EL PRIMER PREMIO EN LA POSICION DE CHICAGO**

In awarding the highest honors of the World's Columbian Exposition to McDonald's Harvesting Machinery the Committee on Field Trials made the statement: "We desire to advise you that we are so much convinced that we are placing it, regarding all the other machines that we have examined, as well as in the specific examples of the highest commendation to be found in the literature of the agricultural world, that we are, therefore, recommending it for the highest award of economical performance."

Now that it is all over the World's Fair, having gone out of business and the judges have taken—certain manufacturers are climbing up on top of the fence and yelling "WE BEAT IT!" But when the show was going on, they laid low and peeped through the fence holes. Never before had the statement of the country editor done so great an opportunity to demonstrate the world that they were "just as good as the McDonalds."

They knew better; they knew their talk was only advertising talk; they were scared enough not to operate their "Cheap Jack" machines side by side with the McDonalds, before a committee of practical agriculturists, men—and there among them who wanted to be **FORWARD** during the **RAINBOW YEARS** of the World's Fair were being told, called them

...elves together and took their "world-beating machine" (on page 1) 1,500 miles away—crawled in under the canvas and had a "drip test" that was eminently satisfactory to them, and then they made an official (?) report of themselves, by themselves, to themselves, which must have struck them as being as smooth and eloquent as the "gurgles and gurgles of gurgling etc."
